Foundations of Infection Prevention and Control
The ACIPC Foundations of Infection Prevention and Control Course provides individuals with the foundations to apply a body of knowledge in a range of contexts to undertake professional or highly skilled work. The course is a pathway for further learning and is a key component to achieving the ACIPC Primary Credential (CICP-P).

Target Audience:

Health and allied health care professionals:
- Metropolitan and rural healthcare facilities
- Remote and community locations
- Office-based practice
- Residential aged care
- Mental health
- Drug and alcohol
- Health policy
- Veterinary practice
- NGOs

Program Learning Outcomes

The learning outcomes for this course are aligned with AQF level 8.

2018 Course Structure

The course runs over 21 weeks and consists of 11 self-directed learning modules that are supported through a structured online program. Each module and its activities will take approximately 8–10 hours to complete.

Cost and Assessment

Please visit the ACIPC website for further information.
