

Safer Care Victoria

Robyn Hudson, Director Clinical Engagement

June 2017

Targeting zero

Better, Safer Care

Safer Care Victoria

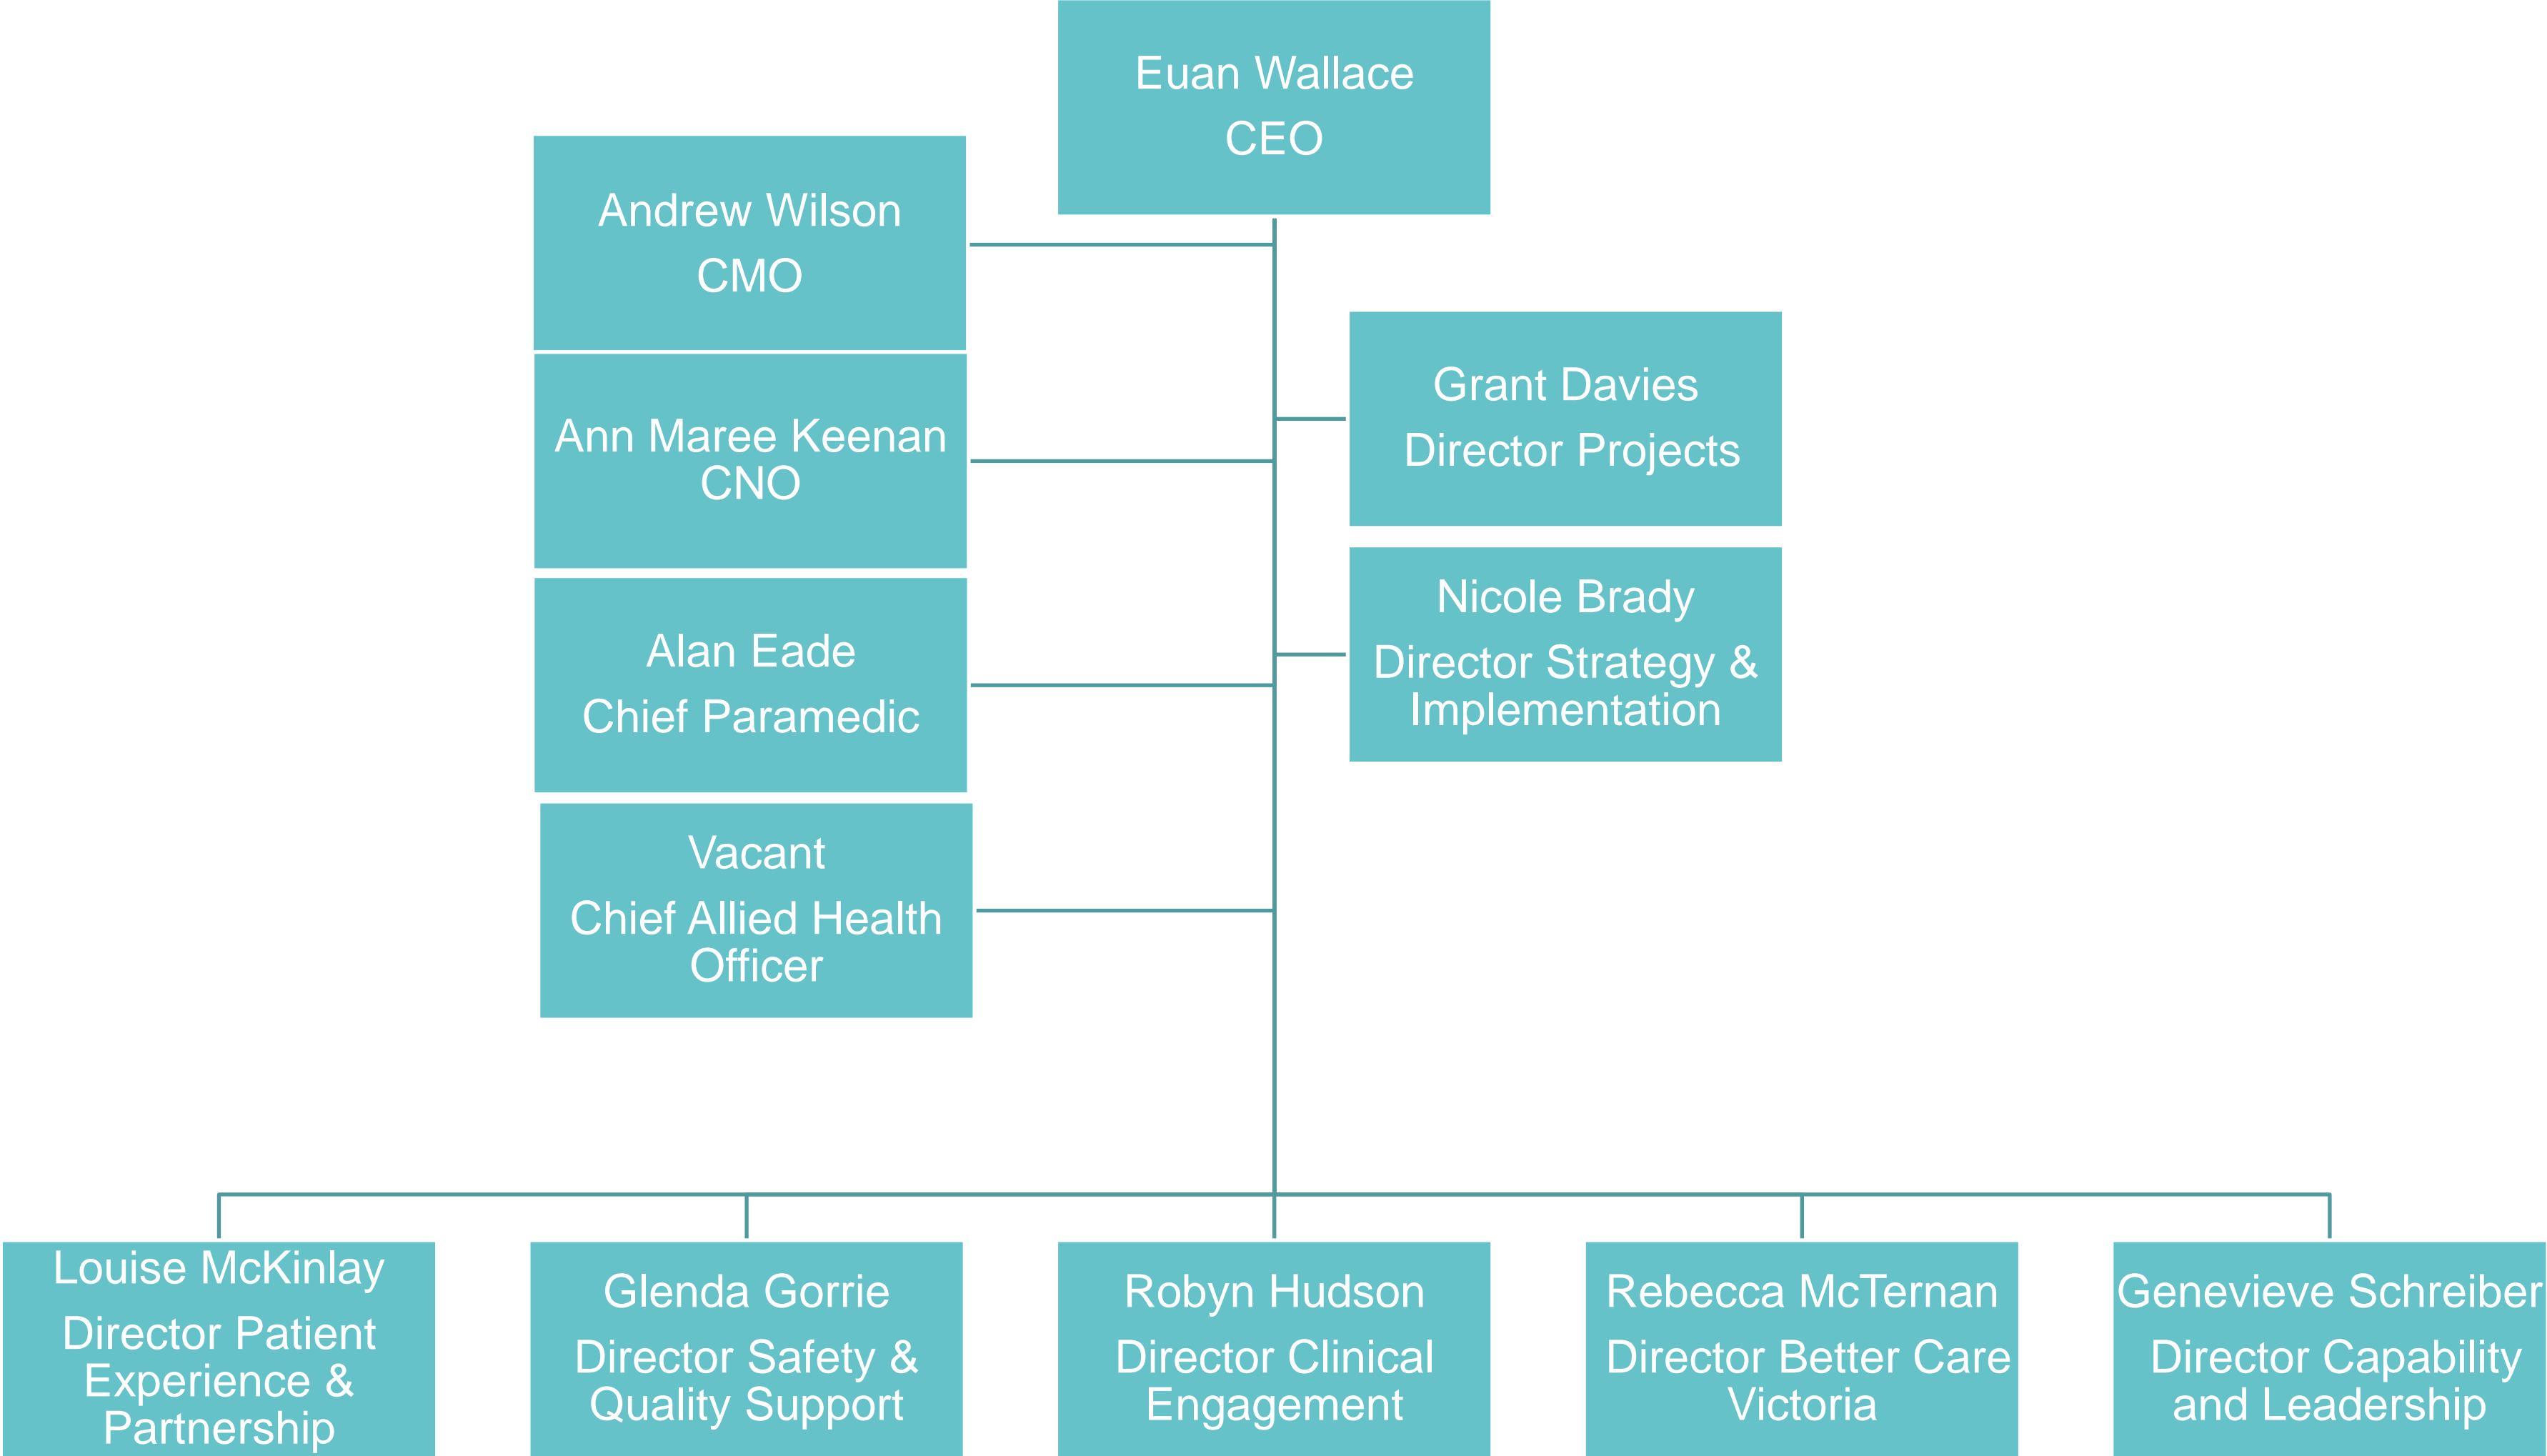

Will work with health services to monitor and improve the quality and safety of care delivered across our health system, with the goal of achieving zero avoidable patient harm

Victorian Agency for Health Information

A new health information agency will analyse and share information across our system to ensure everyone has an accurate picture of where the concerns are and where we're getting it right

Safer Care Victoria

Safer Care Victoria

**Our mission is to ensure outstanding health care for all Victorians.
Always.**

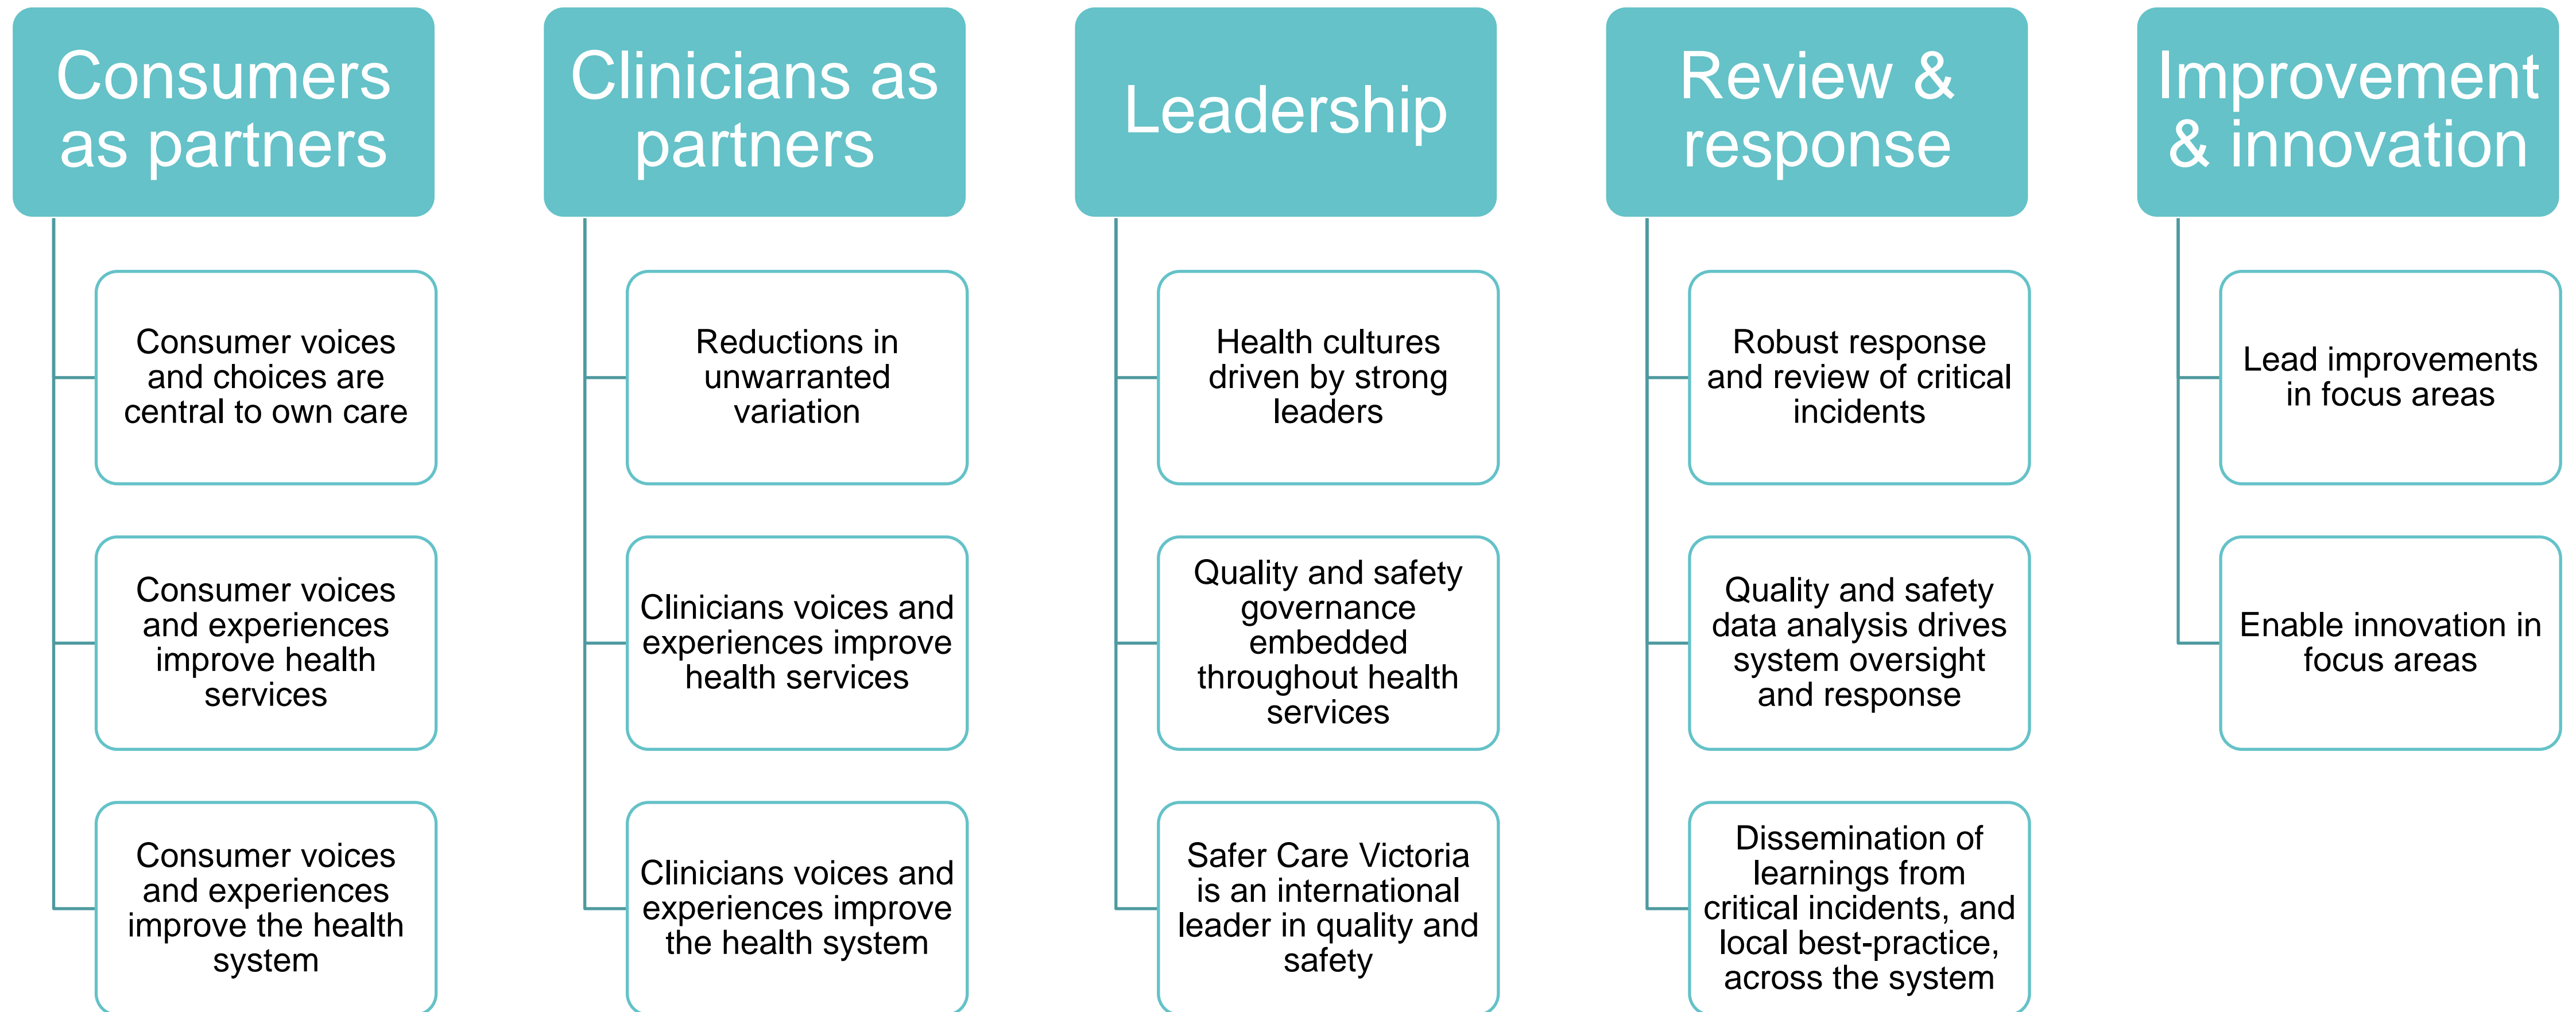

**Our purpose is to enable all health services to deliver safe, high
quality care and experiences for patients, staff and clinicians.**

76 Clinicians and Consumers

Clinicians as partners: Networks

Older People

Maternity & Newborn

Stroke

Emergency

Renal

Paediatrics

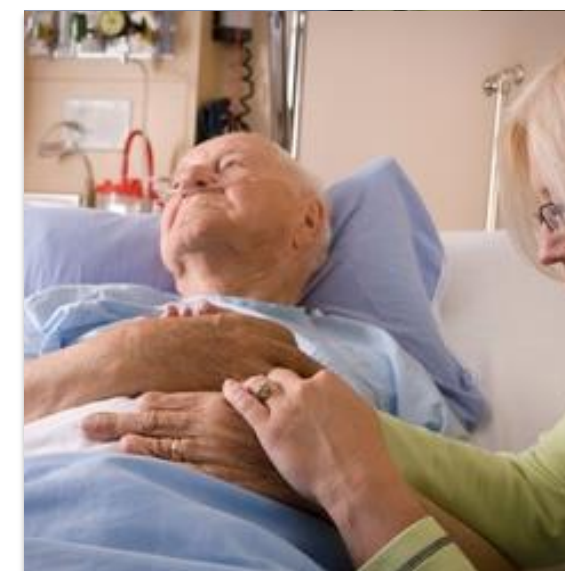

Critical Care

Cardiac

Palliative Care

Clinicians as partners: engagement

Cleaning standards

What you need to know:

1. The cleaning standards KPI will be discontinued as a performance measure for Victorian health facilities
2. Environmental cleanliness will continue to be measured through patient-reported cleanliness (VHES) and accreditation to the National Safety and Quality Health Service (NSQHS) Standards
3. Health facilities will no longer be required to report cleaning audit results to Safer Care Victoria
4. Health facilities will no longer be required to engage external auditors
5. Health facilities may adopt alternative auditing methods, in addition to, or in the place of visual inspections

Safer Care Victoria

**Our mission is to ensure outstanding health care for all Victorians.
Always.**

**Our purpose is to enable all health services to deliver safe, high
quality care and experiences for patients, staff and clinicians.**
