JOIN OUR FREE WEBINAR

Closing the Infection Control Loop: Air Decontamination

Axis Health are excited to announce that we are hosting a **FREE WEBINAR** on the **11TH OF OCTOBER AT 3:30- 4:30 PM AEST** on Zoom. Join our team and our guest speakers; **Carole Hallam** and **Brad Prezant (Infection Control Experts)** and discover how **air decontamination systems** can be used to help close the infection control loop.

KEY WEBINAR AGENDA:

- The current transmission-based precautions and their applicability.
- The thin line between droplet and airborne transmission.
- The relationship between surfaces & transmission of infection.
- The importance of indoor health quality in healthcare.
- The role of technology to provide infection transmission mitigation.

ATTENDEES WILL RECEIVE:

- A certificate of attendance.
- Access to the recording, presentation, clinical papers and articles referenced during the session.

THE CHANCE TO WIN A NOVAERUS PROTECT 200 UNIT.*

*Conditions apply: Available for our Australian and New Zealander attendees only. Eligible attendees must have completed the survey at the end of the webinar to be in the selection pool for the prize.
