INFECTION PREVENTION & CONTROL WEEK
19-25 OCTOBER 2025

MONDAY

UNITE FOR SAFETY

Infection prevention is a shared responsibility – when all staff, residents, patients, and visitors work together, we build stronger protection against infection.

TUESDAY

PREVENT HARM

Simple, consistent actions like hand hygiene, vaccination, and cleaning stop infections before they start.

WEDNESDAY

PROTECT THE VULNERABLE

By using PPE, safe practices, and vigilance, we safeguard those most at risk – from aged care residents to critically ill patients.

THURSDAY

PREVAIL OVER CHALLENGES

Even with emerging threats like resistant organisms, we can adapt and stay resilient through strong IPC

FRIDAY

STAND UP EVERY DAY

Infection prevention isn't just for outbreaks – it's about every shift, every setting, every person, every day.
